CLAIMS 1-24 ARE PENDING

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Applicant's arguments filed 4/13/04 have been fully considered but they are not persuasive.

Applicant argues that Ecklund is silent a teaching that a client edits a software product, and a server updates a database based on the editing. To the contrary, the Abstract of Ecklund itself teaches that each partition accesses a separate copy of an initial data base and independently updates groups of data objects ... to add new versions, and that each virtual partition maintains a copy of all previous versions ... and maintains a change list describing all group updates ... and merges the databases maintained by separate partitions to form a consistent merged database of data objects created by any one of the separate virtual partitions.

3. Claims 1-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Ecklund, US 4,853,843, 01 August 1989.

This maintains the rejection of the previous action, which is hereby incorporated in its entirety.
